

Add/Change Assignable Goals

Goal Details

Title Platform Consolidation

Description

Contribute to the delivery of the Features necessary to enable migration of of Open-c sites to VES. By EOY, outstanding Engineering deliverables should not be holding up any more than 10% of Open-c Sites (stretch goal = deliver *all* necessary functionality, holding up *no* migrations).

The contributions & measure of this goal is broad and may be direct or indirect, including Feature development, migration activities, and pre- or post-migration support.

Editable by Employees

Choose if employees can edit this goal when it is assigned to them.

Yes - employees can edit

I want to use this goal as a starting point for my employees, but it may be edited for each employee's specific needs. Changes I make to this goal will not update the goal for each of my employees.
